ROOF ACCESSORY COATING

DESCRIPTION AND USES

Rust-Oleum® Roof Accessory Coating creates a durable, weather-resistant finish that can be applied to stacks, vents and other roof penetrations. Roof Accessory Coating protects and matches a variety of roof accessories and can be applied to wood, metal, masonry and plastic.

NOTE: Not for use on galvanized steel.

PRODUCT FEATURES

- Protects and matches roof accessories
- Adheres to metal, plastic, masonry and wood
- Durable weather resistant finish

PRODUCTS

SKU	DESCRIPTION (12 Oz. Aerosol)
285217	Weathered Wood
285222	Rustic Brown
302123	Dark Gray
285225	Shakewood
302125	Espresso Brown
285227	Carbon Black
313815	Red Tile
314061	Cedar
383418	Desert Tan
383416	Slate Gray
383419	Forest Green
383420	Blizzard White

PRODUCT APPLICATION

SURFACE PREPARATION

Remove all dirt, grease, oil, and chemical contaminants by washing the surface with a commercial detergent, or other suitable cleaning method. Rinse with fresh water and allow to thoroughly dry. Remove loose paint and rust with a wire brush or sandpaper. Lightly sand glossy surfaces.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN YOUNG CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

PRODUCT APPLICATION (cont.)

APPLICATION

Use outdoors or in a well ventilated area such as an open garage. Use when the temperature is between 50-90°F (10-32°C) and humidity is below 65% to ensure proper drying. Do not apply to surfaces that, when heated, exceed 200°F (93°C) or on galvanized metal. Avoid spraying in very windy, dusty conditions. Cover surrounding area to protect from spray mist.

Shake can vigorously for one minute after mixing ball begins to rattle. If mixing ball fails to rattle, DO NOT STRIKE CAN. Contact Rust-Oleum. Shake often during use. Hold the can upright 10-16" from the surface and spray in a steady back-and-forth motion, slightly overlapping each stroke. Keep the can the same distance from the surface and keep the can in motion while spraying. Apply 2 or more light coats a few minutes apart.

DRY & RECOAT TIMES

Dry and recoat times are based on 70°F (21°C) and 50% relative humidity. Dries to the touch in 20 minutes, to handle in 1 hour and is fully dry in 24 hours. Apply a second coat or clear coat within 1 hour or after 48 hours. Apply a clear coat in 2-3 light coats a few minutes apart.

NOTE: On plastic, maximum paint adhesion and durability is achieved in 5-7 days.

CLEAN-UP

When finished spraying, wipe off tip before storing. Clean up wet paint with xylene or mineral spirits. Dispose of empty can in recycle pickup. Do not burn or place in home trash compactor.

CLOGGING

If valve clogs, twist and pull off spray tip and rinse in a solvent such as mineral spirits. Do not stick pin or other object into the stem.

• TRUSTED QUALITY SINCE 1921 •	TECHNICAL DATA	ROC-72
RUST-OLEUM®		ROOF ACCESSORY COATING

PHYSICAL PROPERTIES

		ROOF ACCESSORY COATING
Resin Type		Acrylic Modified Alkyd
Pigment Type		Varies with color
Solvents		Acetone, n-Butyl Acetate, Naphtha, Xylene
MIR		Max 0.95
Fill Weight		12 oz
Recommended Dry Film Thickness (DFT) Per Coat		1.0-2.0 mils (25-50µ)
Wet Film to Achieve DFT		Varies depending on porosity and texture of surface
Practical Coverage at Recommended DFT		8-12 sq. ft./can (0.74-1.11 m ² /can)
Dry Times at 70°F (21°C) and 50% Relative Humidity	Touch	20 minutes
	Handle	1 hour
	Recoat	Within 1 hour or after 48 hours
Dry Heat Resistance		200°F (93°C)
Shelf Life		5 years
Flash Point		-156°F (-104°C)
Safety Information		For additional information, see SDS
